Temporary Roofing of Football Fields "ORLIK"

AIRDOME3S powered by TILEA Poland offer:

- ▼ Comprehensive technical and regulatory consulting
- ▼ Obtaining building and usage permits
- ▼ Fire safety expertise assistance and consultation
- ▼ Complete project documentation
- ▼ Production / Installation / Commissioning / Service

- ▼ Do not limit the possibilities of training and practicing sports.
- ▼ Do not shorten the season due to the climate.
- ▼ You train from April to October.
- ▼ In winter, you train in the gym.

Change this situation.

We have developed a temporary roofing for the existing football field "Orlik" with a self-supporting inflatable hall with a thermal membrane.

Assembly time (autumn) - 1 day.

Disassembly time (spring) - 1 day.

Advantages of the Temporary Roofing Project for Football Fields ORLIK

- ▼ Creating the possibility of comfortable training all year round.
- ▼ Lighting and heating enabling year-round matches and training in optimal conditions.
- ▼ Low cost of hall construction.
- ▼ Short assembly and disassembly time of the roofing.
